Hinweis

Es wurden angemessene Anstrengungen unternommen, um sicherzustellen, dass die in diesem Dokument enthaltenen Informationen vollständig und korrekt sind. Avaya übernimmt jedoch keine Haftung für eventuelle Fehler. Avaya behält sich das Recht vor, die in diesem Dokument enthaltenen Informationen ohne entsprechende Mitteilung an eine Person oder Organisation zu ändern und zu korrigieren.

Haftungsausschluss für Dokumentation

„DOKUMENTATION“: Dies bezieht sich auf in Form verschiedener Medien veröffentlichte Informationen, die den Benutzern allgemein zugänglich gemacht werden; hierzu können Produktinformationen, Abonnement- oder Dienstleistungsbeschreibungen, Bedienungsanleitungen und Leistungsspezifikationen gehören. Der Begriff „Dokumentation“ schließt Marketingmaterialien nicht mit ein. Avaya haftet nur dann für Änderungen, Ergänzungen oder Streichungen der ursprünglich veröffentlichten Fassung dieser Dokumentation, wenn diese Änderungen, Ergänzungen und Streichungen von Avaya selbst oder in ausdrücklichem Auftrag von Avaya vorgenommen wurden. Der Endnutzer erklärt sich einverstanden, Avaya sowie die Handlungsbevollmächtigten, Angestellten und Beschäftigten von Avaya im Falle von Forderungen, Rechtsstreitigkeiten, Ansprüchen und Urteilen auf der Grundlage von oder in Verbindung mit nachträglichen Änderungen, Ergänzungen oder Streichungen in dieser Dokumentation zu entschädigen und von jeglicher Haftung freizustellen, sofern diese Änderungen, Ergänzungen oder Streichungen vom Endnutzer vorgenommen worden sind.

Haftungsausschluss für Links

Avaya ist nicht verantwortlich für den Inhalt oder die Korrektheit verknüpfter Websites, auf welche auf dieser Website bzw. in dieser/n von Avaya bereitgestellten Dokumentation(en) verwiesen wird. Avaya haftet nicht für die Verlässlichkeit von auf diesen Websites enthaltenen Informationen, Aussagen oder Inhalten und unterstützt nicht notwendigerweise die Produkte, Dienstleistungen oder Informationen, die auf diesen beschrieben oder angeboten werden. Avaya garantiert nicht, dass diese Links jederzeit funktionieren, und hat keinen Einfluss auf die Verfügbarkeit dieser Websites.

Garantie

Avaya gewährt eine eingeschränkte Gewährleistung für Hardware und Software von Avaya. Die Bedingungen der eingeschränkten Gewährleistung können Sie Ihrem mit Avaya geschlossenen Kaufvertrag entnehmen. Darüber hinaus stehen Avaya-Kunden und Dritten die Standard-Gewährleistungsbedingungen von Avaya sowie Informationen über den Support für dieses Produkt während der Gewährleistungszeit auf der Avaya-Support-Website <https://support.avaya.com/helpcenter/getGenericDetails?detailId=C20091120112456651010> unter dem Link „Gewährleistung und Produktlebenszyklus“ bzw. auf einer von Avaya bekannt gegebenen Nachfolgesite zur Verfügung. Beachten Sie hierbei: Bei Erwerb des Produktes/der Produkte von einem Avaya-Channel Partner außerhalb der Vereinigten Staaten und Kanada wird die Gewährleistung von diesem Avaya-Channel Partner und nicht direkt von Avaya erbracht.

„Gehostete Dienste“: Dies bezeichnet das Abonnement eines von Avayagehosteten Dienstes, das Sie von Avaya oder (ggf.) einem autorisierten Avaya-Channel Partner erworben haben und das in SAS- oder sonstigen Servicebeschreibungen bezüglich des betreffenden gehosteten Dienstes näher beschrieben wird. Wenn Sie ein Abonnement eines gehosteten Dienstes erwerben, ist die oben genannte eingeschränkte Gewährleistung gegebenenfalls nicht gültig. Sie haben jedoch möglicherweise Anspruch auf Support-Leistungen in Verbindung mit dem gehosteten Dienst. Dies ist in den Dokumenten der Servicebeschreibung für den betreffenden gehosteten Dienst näher beschrieben. Setzen Sie sich mit Avaya oder (ggf.) mit dem Avaya-Channel Partner in Verbindung, wenn Sie weitere Informationen hierzu wünschen.

Gehosteter Dienst

FOLGENDE BESTIMMUNGEN GELTEN NUR, WENN SIE EIN ABONNEMENT FÜR EINEN VON AVAYA GEHOSTETEN DIENST VON AVAYA ODER EINEM AVAYA-CHANNEL PARTNER (FALLS ZUTREFFEND) ERWERBEN. DIE NUTZUNGSBEDINGUNGEN DER GEHOSTETEN DIENSTE SIND AUF DER AVAYA-WEBSITE [HTTPS://SUPPORT.AVAYA.COM/LICENSEINFO](https://support.avaya.com/licenseinfo) UNTER DEM LINK „Avaya-Nutzungsbedingungen für gehostete Dienste“ ODER ETWAIGEN VON AVAYA BEKANNT GEGEBENEN NACHFOLGEGEITEN ABRUFBAR UND GELTEN FÜR ALLE PERSONEN, DIE DEN GEHOSTETEN DIENST AUFRUFEN ODER NUTZEN. INDEM SIE DEN GEHOSTETEN DIENST AUFRUFEN ODER NUTZEN ODER ANDERE DAZU AUTORISIEREN, STIMMEN SIE IN IHREM NAMEN UND IM AUFTRAG IHRER ORGANISATION (IM NACHFOLGENDEN ENTWEDER „SIE“ ODER DER „ENDNUTZER“ BEZEICHNET) DEN NUTZUNGSBEDINGUNGEN ZU. WENN SIE DEN NUTZUNGSBEDINGUNGEN IM NAMEN EINES UNTERNEHMENS ODER EINER ANDEREN RECHTSPERSON ZUSTIMMEN, GARANTIEREN SIE, DASS SIE AUTORISIERT SIND, DIESE ENTITÄT AN DIE VORLIEGENDEN NUTZUNGSBEDINGUNGEN ZU BINDEN. WENN SIE DAZU NICHT BEFUGT SIND ODER SIE DIESEN NUTZUNGSBESTIMMUNGEN NICHT ZUSTIMMEN MÖCHTEN, DÜRFEN SIE AUF DEN GEHOSTETEN DIENST WEDER ZUGREIFEN NOCH IHN NUTZEN UND NIEMANDEN AUTORISIEREN, AUF DEN GEHOSTETEN DIENST ZUZUGREIFEN ODER IHN ZU NUTZEN.

Lizenzen

Die globalen Software-Lizenzbedingungen („Software-Lizenzbedingungen“) sind auf der folgenden Website <https://www.avaya.com/en/legal-license-terms/> oder auf einer von Avaya benannten Nachfolgesite verfügbar. Diese Software-Lizenzbedingungen gelten für alle, die Software und/oder Dokumentation installieren, herunterladen und/oder verwenden. Durch Installieren, Herunterladen oder Nutzen der Software, oder Autorisierung anderer dazu, stimmt der Endbenutzer zu, dass die Software-Lizenzbedingungen einen bindenden Vertrag zwischen ihm und Avaya darstellen. Sofern der Endbenutzer die Software-Lizenzbedingungen im Auftrag eines Unternehmens oder einer anderen Rechtsperson akzeptiert, erklärt er, dazu bevollmächtigt zu sein, das Unternehmen oder die Rechtsperson an die Software-Lizenzbedingungen rechtlich zu binden.

Copyright

Das Material dieser Website, die Dokumentation, Software, der gehostete Dienst oder die Hardware, die von Avaya bereitgestellt werden, dürfen nur für die anderweitig ausdrücklich festgelegten Verwendungszwecke verwendet werden. Sämtliche der von Avaya bereitgestellten Inhalte dieser Website, die Dokumentation, der gehostete Dienst und die Produkte, einschließlich Auswahl, Layout und Design der Inhalte, sind Eigentum von Avaya oder den Lizenzgebern des Unternehmens und sind durch Urheberrechte und andere Gesetze zum Schutz geistigen Eigentums, einschließlich des Sui-Generis-Rechts zum Schutz von Datenbanken, geschützt. Es ist nicht gestattet, den Inhalt, darunter Code und Software, zur Gänze oder teilweise zu ändern, zu kopieren, zu vervielfältigen, neu zu veröffentlichen, hochzuladen, im Internet zu veröffentlichen, zu übertragen oder zu vertreiben, es sei denn mit ausdrücklicher Genehmigung von Avaya. Die unbefugte Vervielfältigung, Übertragung, Verbreitung, Speicherung oder Nutzung ohne ausdrückliche schriftliche Genehmigung von Avaya kann unter dem geltenden Recht straf- oder zivilrechtlich verfolgt werden.

Virtualisierung

Die folgenden Bestimmungen sind anwendbar, wenn das Produkt auf einem virtuellen Computer bereitgestellt wird. Jedes Produkt hat einen eigenen Bestellcode und eigene Lizenztypen. Sofern nicht anders angegeben, muss jede Instanz eines Produkts separat lizenziert und bestellt werden. Wenn der Endanwender-Kunde oder Avaya-Channel Partner zwei Instanzen von Produkten desselben Typs installieren möchte, dann müssen von diesem Typ zwei Produkte bestellt werden.

Komponenten von Drittanbietern

Das Folgende gilt nur, wenn der H.264 (AVC)-Codec mit dem Produkt vertrieben wird. DIESES PRODUKT WIRD IM RAHMEN

DER AVC-PATENT-PORTFOLIO-LIZENZ FÜR DEN PRIVATEN ODER ANDERWEITIG UNENTGELTLICHEN GEBRAUCH DURCH ENDKUNDEN LIZENZIERT. DIE LIZENZ GEWÄHRT (i) DIE CODIERUNG VON VIDEODATEN GEMÄSS DEM AVC-STANDARD („AVC-VIDEO“) UND/ODER (ii) DIE DECODIERUNG VON AVC-VIDEODATEN, DIE VON EINEM KUNDEN ZU PRIVATEN ZWECKEN CODIERT ODER VON EINEM VIDEO-ANBIETER MIT GÜLTIGER LIZENZ FÜR DIE BEREITSTELLUNG VON AVC-VIDEO BEZOGEN WURDEN. ES WERDEN KEINE LIZENZEN FÜR ANDERE ZWECKE ERTEILT ODER GEWÄHRT. AUSFÜHRLICHERE INFORMATIONEN ERHALTEN SIE VON MPEG LA, L.L.C. UNTER [HTTP://WWW.MPEGLA.COM](http://www.mpegla.com).

Dienstleister

FOLGENDES GILT FÜR CODECS: WENN DER AVAYA CHANNEL PARTNER PRODUKTE HOSTET, DIE DIE CODECS H.264 ODER H.265 VERWENDEN BZW. IN DIE DIESE CODECS EINGEBETTET SIND, AKZEPTIERT UND BESTÄTIGT DER AVAYA CHANNEL PARTNER, DASS ER SELBST FÜR SÄMTLICHE LIZENZ- UND/ ODER ANDERE GEBÜHREN IM ZUSAMMENHANG MIT DIESEN CODECS VERANTWORTLICH IST. DER H.264 (AVC)-CODEC WIRD IM RAHMEN DER AVC-PATENT-PORTFOLIO-LIZENZ FÜR DEN PRIVATEN ODER ANDERWEITIG UNENTGELTLICHEN GEBRAUCH DURCH ENDKUNDEN LIZENZIERT. DIE LIZENZ GEWÄHRT (i) DIE CODIERUNG VON VIDEODATEN GEMÄSS DEM AVC-STANDARD („AVC-VIDEO“) UND/ODER (ii) DIE DECODIERUNG VON AVC-VIDEODATEN, DIE VON EINEM KUNDEN ZU PRIVATEN ZWECKEN CODIERT ODER VON EINEM VIDEO-ANBIETER MIT GÜLTIGER LIZENZ FÜR DIE BEREITSTELLUNG VON AVC-VIDEO BEZOGEN WURDEN. ES WERDEN KEINE LIZENZEN FÜR ANDERE ZWECKE ERTEILT ODER GEWÄHRT. WEITERE INFORMATIONEN ZU DEN CODECS H.264 (AVC) UND H.265 (HEVC) ERHALTEN SIE VON MPEG LA, L.L.C. UNTER [HTTP://WWW.MPEGLA.COM](http://www.mpegla.com).

Einhaltung der Gesetze

Sie nehmen zur Kenntnis und bestätigen, dass Sie für die Einhaltung der geltenden Gesetze und Vorschriften verantwortlich sind, einschließlich, aber nicht beschränkt auf Gesetze und Vorschriften in Bezug auf Anrufaufzeichnung, Datenschutz, geistiges Eigentum, Betriebsgeheimnisse, Betrug und Aufführungsrechte in dem Land oder Gebiet, in dem das Avaya-Produkt verwendet wird.

Gebührenbetrug verhindern

„Gebührenhinterziehung“ ist die unberechtigte Nutzung Ihres Telekommunikationssystems durch eine unberechtigte Partei (z. B. Personen, die keine Angestellten, Handlungsbevollmächtigten oder Auftragnehmer sind und die nicht im Auftrag Ihrer Firma arbeiten). Sie sollten sich darüber im Klaren sein, dass Gebührenbetrug in Verbindung mit Ihrem System möglich ist und gegebenenfalls zu erheblichen zusätzlichen Gebühren für Ihre Telekommunikationsdienste führen kann.

Avaya-Hilfe bei Gebührenbetrug

Wenn Sie vermuten, dass Sie Opfer von Gebührenbetrug geworden sind und technische Unterstützung oder Unterstützung benötigen, wenden Sie sich bitte an Ihren Avaya-Vertriebsmitarbeiter.

Sicherheitsrisiken

Informationen zu den Avaya-Support-Richtlinien zur Sicherheit finden Sie im Bereich „Security Policies and Support“ unter <https://support.avaya.com/security>.

Verdächtige Sicherheitsschwachstellen bei Avaya-Produkten werden gemäß Avaya Product Security Support Flow (<https://support.avaya.com/css/P8/documents/100161515>) gehandhabt.

Marken

Die auf dieser Website, in der Dokumentation, den gehosteten Diensten und in den Produkten von Avaya enthaltenen Marken, Logos und Dienstleistungsmarken („Marken“) sind eingetragene oder nicht eingetragene Marken von Avaya, seinen Partnern, seinen Lizenzgebern, seinen Lieferanten oder anderen Drittparteien. Die Nutzung dieser Marken ist nur nach vorheriger schriftlicher Genehmigung von Avaya oder der betreffenden Drittpartei, die Eigentümer der Marke ist, gestattet. Ohne ausdrückliche schriftliche Genehmigung durch Avaya bzw. des jeweiligen Drittanbieters erteilen die Website, die Dokumentation, die gehosteten Dienste und

Produkte weder stillschweigend noch durch Rechtsverwirkung eine Lizenz oder ein sonstiges Recht bezüglich der Marken.

Avaya ist eine eingetragene Marke von Avaya LLC.

Alle Nicht-Avaya-Markennamen sind Eigentum der jeweiligen Inhaber.

Linux® ist eine eingetragene Handelsmarke von Linus Torvalds in den USA und anderen Ländern.

Herunterladen der Dokumentation

Die aktuellsten Versionen der Dokumentation finden Sie auf der Avaya-Support-Website unter <https://support.avaya.com> bzw. auf einer von Avaya bekannt gegebenen Nachfolgesite.

Avaya-Support kontaktieren

Mitteilungen und Artikel zu Produkten und gehosteten Diensten finden Sie auf der Avaya-Support-Website: <https://support.avaya.com>. Dort können Sie auch Probleme mit Ihrem Avaya-Produkt oder gehosteten Dienst melden. Eine Liste mit Support-Telefonnummern und Kontaktadressen finden Sie auf der Support-Website von Avaya unter <https://support.avaya.com> (bzw. auf einer von Avaya bekannt gegebenen Nachfolgesite). Scrollen Sie ans Ende der Seite und wählen Sie „Avaya-Support kontaktieren“ aus.

Chapter 1: Introduction

This document covers mailbox operation on IP Office system using a Voicemail Pro server running in Intuity emulation mailbox mode. If you are not sure which system you have and the mode it is operating in, see [Which Voicemail Do I Have?](#) on page 6.

- Intuity is a set of spoken voicemail mailbox prompts supported by many Avaya voicemail systems. Your system supports a sub-set of the full Intuity feature set.

Which Voicemail Do I Have?

The operation of voicemail is highly customizable. So it is important that you use the correct mailbox guide:

How Do I Determine Which Guide to Use?

Your system administrator can tell you what type of voicemail your Avaya IP Office system is using. However, the following process may help you to determine it for yourself:

1. On your phone, dial *17 to access voicemail.
2. After the initial greeting, if the voicemail asks “Please enter extension and pound key”, then the voicemail system is running in Intuity mode. Otherwise, go to step 3.
 - a. Press 7. If the system responds with a set of scan options, your voicemail server is Voicemail Pro.
 - b. If the system doesn't respond, your voicemail server is Embedded Voicemail.
3. If otherwise, your voicemail system is running in IP Office mode. Press *05.
 - a. If the system responds with a set of options, your voicemail server is Embedded Voicemail.
 - b. If the system doesn't respond, your voicemail server is Voicemail Pro.

Depending on the above, the following mailbox user guides are available:

- [Using IP Office Embedded Voicemail IP Office Mode](#)

- [Using IP Office Embedded Voicemail Intuity Mode](#)
- [Using a Voicemail Pro Intuity Mode Mailbox](#)
- [Using a Voicemail Pro IP Office Mode Mailbox](#)

[Introduction](#) on page 6

Mailbox Limits and Automatic Message Deletion

Your mailbox is limited to 60 minutes of messages and recordings. Once that limit is reached, additional callers are told that they cannot leave a message and your system administrator may receive an alarm.

In normal use, the system automatically deletes a message 30 days after you have played any part of it.

Chapter 2: Logging Into Your Mailbox

The way in which you log in to your Intuity mailbox is the same whether or not it is the first time you have logged in. The prompts that you hear are different.

- When you log in to your mailbox for the first time, you may be asked to set a mailbox password and to record your name.
- For subsequent times, you need only enter your mailbox number and password.
- Many Avaya telephones have a  key or menus for gaining access to voicemail mailboxes.
- You can also use the one-X Portal for IP Office application. It can display when you have voicemail messages.
- Occasionally, you may want to log in to your mailbox from a telephone that is not on the telephone network of your organization. For more information, see [Logging In Remotely](#) on page 12.

First-Time Login

About this task

The first time you call your mailbox you are prompted to record your name and change the mailbox password. The name that you record is used in various system announcements and in the voicemail system directory search.

Similarly, your system administrator can tell you if your mailbox already has a password set. Typically, a password is not set until the first time you log in.

Procedure

1. On any extension, dial ***17**.
2. If you are dialing from your own extension, press **#**. Otherwise, enter your extension number and press **#**.
3. Enter your password and press **#**. If a password has not been set yet, just press **#**.

4. You are asked to enter a new password. Enter and confirm the password you want to use.
 - You must enter at least 6-digits. The system allows up to 15-digits.
 - You cannot use your extension number, repeated digits or consecutive numbers.
 - You cannot use common key pad patterns such as 1397.
 - Your system administrator can change the minimum requirements and will inform you if they are different.
5. Record your name when you are prompted.
 - a. Press **1** and at the tone, speak your name.
 - b. Press **1** again. Your recording is played back.
 - c. Either press **#** to accept the recording or **1** to record again.
6. After you log in, the voice prompts tell you what to do. For a summary, see [Mailbox Options](#) on page 7.

Related links

[Logging Into Your Mailbox](#) on page 10

Logging In

About this task

If you have already logged in once and recorded your name and set a password, you need only enter your mailbox number and the password.

Procedure

1. On any extension, dial ***17**.
2. If you are dialing from your own extension, press **#**. Otherwise, enter your extension number and press **#**.
3. Enter your password and press **#**.
4. After you log in, the voice prompts tell you what to do. For a summary, see [Mailbox Options](#) on page 7.

Related links

[Logging Into Your Mailbox](#) on page 10

Logging In Remotely

About this task

You can log in to mailboxes from a telephone that is not on your telephone system. Your system administrator may configure a special number for that. However, if that is not the case, you can use the method below to log in remotely.

Procedure

1. Call your company. If necessary, ask to be connected to a number that will go to voicemail. For example; your own extension assuming you have it set to send unanswered calls to voicemail.
2. Wait for the voicemail system to respond and ask you to leave a message.
3. Press **#**. Voicemail announces the actions that you can perform.
4. Dial ***7**.
 - If you have already logged into a mailbox, you can access this option to login to a different mailbox by pressing ****7**.
5. Enter your extension number and press **#**.
6. Enter your password and press **#**.
7. After you log in, the voice prompts tell you what to do. For a summary, see [Mailbox Options](#) on page 7.

Related links

[Logging Into Your Mailbox](#) on page 10

Logging into Visual Voice

About this task

Visual voice is a set of Avaya phone menus that you can use to access your mailbox and the mailbox settings.

By default, the  button on Avaya phones accesses the visual voice menus for the phone user's mailbox.

- Your system administrator can also configure the visual voice menus for your phone to provide access to messages in other users and groups mailboxes.

Procedure

1. Either:
 - a. Press the  button on your Avaya phone.
 - b. Press **Features**. Scroll down to **Visual Voice** and press **Select**.

- c. Press the optional **Visual Voice** button that has been programmed on your phone.
2. The visual voice options should appear on the phone's screen. See [Visual Voice Controls](#) on page 57.

Related links

[Logging Into Your Mailbox](#) on page 10

[Visual Voice](#) on page 56

Chapter 3: Listening to Messages

When you have successfully logged in to your mailbox (see [Logging In](#) on page 11), you will hear an announcement telling you about the messages that you have. For example, you hear the number of voice messages.

You can listen to your messages or record a new message and send it.

If any of your messages are emails, you can also reply. If any of your messages are fax messages, you can specify a personal fax number so that you can forward or print them. You will only receive email and/or fax messages configured by your system administrator.

Playback Order - By Message Type

By default, voicemail plays messages to you in the following order:

1. **Voice messages**
2. **Fax messages**
3. **Email messages**

Each message starts with a header, which contains details about who the message is from (if known) and when it was left. For fax messages, the header includes the number of pages. You can change the order if you prefer to hear the types of message in a different order, for example email messages first. For more information, see [Setting the Order in which Messages are Played](#).

Playback Order - By Message Status

Message of all types are grouped in to the following categories. Priority messages are played first, followed by new messages and then old messages.

1. **Priority:** When a caller leaves a message, they can mark it as a priority message.
2. **New:** A message that has not been listened to.
3. **Old:** After you have listened to a new message it becomes an old message. Unless you delete them sooner, messages are automatically deleted after 30 days. See [Mailbox Limits and Automatic Message Deletion](#) on page 7.(720 hours). Check with your system administrator to find out how long messages are stored before they are automatically deleted.

Listening to Messages

About this task

When you receive messages, you can skip the header and listen to the message. While listening to your messages, you can listen to all or just part of the message again.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. The number of new messages is announced. The announcement tells you how many of those messages are priority messages.
3. Press **2** to receive your messages. The header of the first message is played.
 - To skip the message header and listen to the message, press **0**.
4. As you listen to each message, you can use the following controls to listen to all or part of the message again.
 - **To restart:** Press **2**.
 - **To replay header:** Press **23**.
 - **To pause/resume:** Press **3**.
 - **To rewind 5 seconds:** Press **5**.
 - **To restart:** Press ***5**.
 - **To advance 5 seconds:** Press **6**.
5. When you have listened to the message, you have the following options:
 - To reply to the message, press **1** . See [Replying to a Voice Message](#) on page 16.
 - To forward a fax message, press ***1** . See [Forwarding a Fax Messages](#) on page 53.
 - To delete the message and continue to the next message, press ***3**.
 - To play the next message, press **#** .

Calling the Message Sender

About this task

If the message you are listening to was from another extension, you can call the sender back.

Procedure

1. While listening to the message, press **1**.

2. To make a call to the sender, press **0**. You are logged out of your mailbox.

Related links

[Listening to Messages](#) on page 14

Replying to a Voice Message

About this task

When you receive a voice message, you can send a reply message to the sender. You can choose to reply with or without the original message attached.

Procedure

1. While listening to the message, press **1**.
2. To reply to the message, press **1** again.
3. Select how to reply:
 - To reply without the original message attached, press **6**.
 - To reply with the original message attached, press **9**.
4. After the tone, record your reply.
5. When you have finished, press **#**.

[Listening to Messages](#) on page 14

Forwarding a Message

About this task

You can forward a voice message to another mailbox or mailboxes. You can add your own comment to the message to be played before the original message.

- An email message can only be forwarded to one mailbox at a time.
- You cannot forward a voice message if it has been marked as private by the sender.
- The comments that are recorded are played followed by the forwarded message.
- If you regularly forward messages to the same group of people, you can create and use a mailing list. See [Mailing Lists](#) on page 24.
- You can configure your mailbox to set address before sending or after. See [Addressing a Message Before You Record](#) on page 50.

Procedure

1. While listening to the message, press **1**.
2. Press **2** to forward the message with a comment.
3. Record your comment and press **#** to finish recording.
4. Voicemail prompts you to enter the forwarding addresses:
 - a. To switch between entering addresses by extension number or by matching user names, press ***2**.
 - b. Enter a mailbox number (or dial the required name) and then press **#**.
 - c. To select and add a mailing list (see [Mailing Lists](#) on page 24), press ***5**. Press **#** to select one of your own lists. Otherwise, enter the mailbox number of the list owner and press **#**. Enter the number of the list and press **#**.
 - d. Repeat until you have entered all the mailboxes to which you want to forward the message.
 - e. To delete the last number you entered, press ***3**.
 - f. Press **#** to finish addressing.
5. Press **#** to send the forwarded message.

Sending a New Message

About this task

You can send a new message to another mailbox or mailboxes.

- If you regularly forward messages to the same group of people, you can create and use a mailing list. See [Mailing Lists](#) on page 24.
- You can configure your mailbox to set address before sending or after. See [Addressing a Message Before You Record](#) on page 50.

Procedure

1. While listening to the message, press **1**.
2. Press **4**. You are prompted to record your new message. Record your comment and press **#** to finish recording.
3. Voicemail prompts you to enter the forwarding addresses:
 - a. To switch between entering addresses by extension number or by matching user names, press ***2**.
 - b. Enter a mailbox number (or dial the required name) and then press **#**.

- c. To select and add a mailing list (see [Mailing Lists](#) on page 24), press *5 . Press # to select one of your own lists. Otherwise, enter the mailbox number of the list owner and press #. Enter the number of the list and press #.
 - d. Repeat until you have entered all the mailboxes to which you want to forward the message.
 - e. To delete the last number you entered, press *3.
 - f. Press # to finish addressing.
4. If required, select one of the following options:
- **To mark the message as private:** Press 1. Private messages cannot be forwarded to users other than the original recipients.
 - **To mark the message as priority:** Press 2. Priority messages are played before new messages.
5. Press # to send copies of the message to other mailboxes.

Scanning Messages

About this task

You can scan through your messages and/or message headers without having to take any further action. The message header tells you when a message was received, who left it (if known) and the message length.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press 7 to select scan messages.
 - To scan the headers and messages, press 1.
 - To scan headers only, press 2.
 - To scan messages only, press 3.
3. While your message header or message is playing:
 - To rewind current message, press 2.
 - To pause/resume, press 3.
 - To exit scan messages, press *7.

4. When you are listening to a message, you can press **1** to respond or forward the message. You then have the options to:
 - To call the sender of the message, press **0**.
 - To leave a voice message in the caller's mailbox, press **1**.
 - To forward the message to another mailbox, press **2**.
 - To send a new message to another mailbox owner, press **4**.
5. After you have listened to all of your messages, you are returned to the activity menu.

Recording a Message

About this task

You can record a message and send it to another mailbox or several mailboxes at the same time.

- Recordings must be at least 3 seconds long. The system will automatically delete any messages that are shorter.
- If you regularly forward messages to the same group of people, you can create and use a mailing list. See [Mailing Lists](#) on page 24.
- You can configure your mailbox to set address before sending or after. See [Addressing a Message Before You Record](#) on page 50.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. To select recording, press **1**. After the tone, start recording your message:
 - Press **#** to end the recording or press **1** to edit the recording that has just been made.
 - **To stop/start recording:** Press **1**.
 - **To rewind the recording:** Press **2**.
 - **To play back the recording:** Press **23**.
 - **To delete the recording:** Press ***3**.
 - **To approve the recording:** Press **#**.
3. Voicemail prompts you to enter the forwarding addresses:
 - a. To switch between entering addresses by extension number or by matching user names, press ***2**.
 - b. Enter a mailbox number (or dial the required name) and then press **#**.

- c. To select and add a mailing list (see [Mailing Lists](#) on page 24), press *5 . Press # to select one of your own lists. Otherwise, enter the mailbox number of the list owner and press #. Enter the number of the list and press #.
 - d. Repeat until you have entered all the mailboxes to which you want to forward the message.
 - e. To delete the last number you entered, press *3.
 - f. Press # to finish addressing.
4. If required, select one of the following options:
 - **To mark the message as private:** Press 1. Private messages cannot be forwarded to users other than the original recipients.
 - **To mark the message as priority:** Press 2. Priority messages are played before new messages.
 5. Press # to send copies of the message to other mailboxes.

Transferring a Call to a Mailbox

About this task

You can use the  button on your phone as the destination for call transfers. This allows you to transfer a caller directly to another user's or group's mailbox to leave a message.

Procedure

1. Press **Transfer**.
2. Press the  button.
3. Enter the extension number of the mailbox required.
4. Complete the transfer.

Skipping the Mailbox Greeting

About this task

You and other callers can skip the mailbox owners greeting when you are directed to leave a message.

Procedure

1. As soon as you hear the mailbox greeting, press **1**.
2. You hear a tone, after which you can record your message.

Related links

[Caller Options](#) on page 22

Breakout Options

Your system administrator can configure a number of breakout options. Whilst listening to your greeting, callers may be able to press **0**, **2** or **3** to be transferred to another extension. For example, press **0** to transfer to your company receptionist.

If your system administrator has configured any of these options, it is useful to include them in any greetings you record for your mailbox.

Related links

[Caller Options](#) on page 22

Post-Message Options

About this task

After having recorded a message to be left in a mailbox, rather than just hanging up, you can use the following options.

Procedure

1. Leave a message as normal.
2. Instead of hanging up, press **#**.
3. If required, select one of the following options:
 - **To mark the message as private:** Press **1**. Private messages cannot be forwarded to users other than the original recipients.
 - **To mark the message as priority:** Press **2**. Priority messages are played before new messages.
4. Press **#** to send copies of the message to other mailboxes.
5. Having sent the message, you can now use one of the following options:
 - To login to a mailbox, press ***7**. See [Logging In Remotely](#) on page 12.
 - To be transferred to an extension number, press ***8** and enter the extension number.
 - To end the call, hang up as normal.

Related links

[Caller Options](#) on page 22

Chapter 6: Mailing Lists

With mailing lists (also known as personal distribution lists) you can store sets of mailbox numbers so that you can send a voice message to several recipients at the same time. This is useful if you often send messages to the same people, for example the members of one or more departments or even the whole company.

Your mailbox can have up to 20 mailing lists associated with it. Each list can contain up to 360 mailbox numbers. Lists can be private or public.

- Private lists can be used only by you while public lists can be used by other mailbox users when they forward a message.
- If you create a public list, it cannot be modified by other users.
- When you address a message, you can select one of your own mailing lists or a public list from a different mailbox.

Once a list has been created, it can be used to send and forward messages using the telephone. The list can also be changed or deleted using the telephone.

Creating a Mailing List

About this task

You can create up to 20 mailing lists for your mailbox. Each mailing list can contain up to 360 mailbox numbers. Once a list has been created, it can be used to send and forward messages using the telephone. The list can also be changed or deleted using the telephone.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.

2. Press **5** for personal options.
3. Press **1** for mailing list options.
4. Press **1** to create a new mailing list.
5. Enter a number to identify the list and then press **#**.
 - The list identifying number must be less than 6 digits long. If the number is too long or already in use, voicemail prompts you to enter a different number followed by **#**.
6. Mark the list as private or public:
 - To mark a list a private, press **1**. A private list can only be used by you.
 - To mark a list as public, press **2**. A public list can be used by other users.
7. When prompted, start adding mailboxes to the mailing list. To add a mailbox, enter the mailbox number and press **#**. For local mailboxes the name of mailbox user is confirmed. You can also select the following options while you add mailboxes:
 - Press ***2** to switch to selecting mailboxes by name.
 - Press ***5** to import the contents of another public mailbox list.
 - You are asked to enter the mailbox number of the list owner followed by **#** and then the list number followed by **#**.
 - If the mailbox or list is not valid or the list is private, you are returned to the option for creating a mailbox list in the usual way.
 - If the list exists and is public, its contents are imported as long as importing does not result in a list of more than 360 entries. Any duplicate entries are automatically removed.
8. Press **#** to finish.

[Mailing Lists](#) on page 24

Reviewing a List

About this task

When a mailing list has been created you can find out the list identification number and the members of the listing by scanning or reviewing your mailing lists.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **1** for mailing list options.

4. Press **2** to scan your mailing lists.
5. You hear the number of the lowest numbered list, the number of members it contains and whether it is private or public.
6. You can now use the following options:
 - To listen to the list details, press **0**.
 - To skip to the next list, press **#**.

[Mailing Lists](#) on page 24

Changing the Status of a List

About this task

The status of a mailing lists can be private or public. When a mailing list is public, anyone can use the list to send a message to all the members of the listing. A private mailing list can only be used by the person that owns the list.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **1** for mailing list options.
4. Press **3** to modify mailing lists.
5. When prompted to enter the list owner's number, press **#** for your lists.
6. Enter the list number and press **#**. Voicemail announces the list details.
7. Press **1** to add or change details of the mailing list. Voicemail announces the status of the mailing list.
8. To change the status of the list, press **9**. The new status of the mailing list is announced.
9. Press **#**.
10. Press **#** to finish.
11. Press ***#** to finish.

[Mailing Lists](#) on page 24

Chapter 7: Greetings

By default, callers directed to your mailbox hear the default system greeting and your recorded name (see [Recording Your Name](#) on page 50). However, you can replace this with your own greetings.

Temporary Greeting

You can record a temporary greeting and specify how long in days it should be used. When you have a temporary greeting active, it overrides all your other mailbox greetings. See [Creating a Temporary Greeting](#) on page 38.

Personal Greetings

You can record a library of up to 9 personal greetings for a mailbox to which you have access. You can then select when a particular greeting is used. For example, you can assign different greetings to internal calls and external calls.

You can assign greetings to the call types listed below. If you have assigned greetings to several call types, voicemail uses the first one in the list that is applicable.

1. **Temporary Greeting**
2. **Out of Service** (*hunt group mailboxes only*)
3. **Out of Hours** (*hunt group mailboxes only*)
4. **All Calls**
5. **Internal Calls**
6. **External Calls**
7. **Number engaged calls**
8. **No reply calls**
9. **Default**

Breakout Options

Your system administrator can set up a maximum of three transfer options. If any transfer options have been created any caller who is directed to your voicemail can be given the option to be transferred to a different extension. The transfer options available are 0,2 and 3. Ideally a transfer option should be to an extension where a person is expected to answer. If a transfer results in the caller being diverted to a mailbox on the same system, they will be returned to your voicemail box.

If you are using the transfer options you should record a new greeting message to inform callers that if they press 0, 2 or 3 they will be transferred accordingly.

Recording a Greeting

About this task

You can record a library of up to 9 greetings that can be used as either a temporary greeting or as personal greetings applied to specific call types. The greetings are heard by callers when they are directed to your voicemail.

- A greeting must be longer than 3 seconds. The maximum length of a greeting is 120 seconds.
- If you record a personal greeting, you can choose to not assign the greeting until you need it used.
- If your system administrator has configured any breakout options (see [Breakout Options](#) on page 22), you should mention them in your greetings.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **3** to select personal greetings.
 - If you have any active call types, you hear an announcement listing them. For example, *"For internal calls greeting 1 active"*.
 - If a temporary greeting is active, you hear how many days it will be active. To deactivate it, press **1**. To leave it active, press **#**.
3. Press **1** to create, change or delete a greeting.
4. When prompted, select the greeting (1 to 9) you want to change. The system announces if the greeting is active (in use) for any call types.
5. At the tone, start speaking.
6. When finished, press **1**.
 - To play back the greeting you have just recorded, press **23**.
 - If you want to add to the recording, press **1**. Start speaking and press **1** when finished.
 - Press **#** to confirm the recording.

7. To save the recording, press #.

Next steps

The new greeting can be assigned to a call type by:

- Selecting the call type and then assigning the greeting. See [Assigning a Greeting to a Call Type](#) on page 32.
- Selecting the greeting and activating the greeting for a type of call. See [Activating a Greeting](#) on page 34.

Assigning a Greeting to a Call Type

About this task

The process allows you to select a call type and then assign one of your recorded greeting to that call type.

You can assign greetings to the call types listed below. If you have assigned greetings to several call types, voicemail uses the first one in the list that is applicable.

1. **Temporary Greeting**
2. **Out of Service** (*hunt group mailboxes only*)
3. **Out of Hours** (*hunt group mailboxes only*)
4. **All Calls**
5. **Internal Calls**
6. **External Calls**
7. **Number engaged calls**
8. **No reply calls**
9. **Default**

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **3** to select personal greetings.
 - If you have any active call types, you hear an announcement listing them. For example, *"For internal calls greeting 1 active"*.
 - If a temporary greeting is active, you hear how many days it will be active. To deactivate it, press **1**. To leave it active, press **#**.
3. Press **4** to administer call types.
4. Press **1** to activate a call type. You hear a message to confirm the call types possible.
5. Select the required call type:
 - **1** = All calls greeting
 - **2** = Internal calls greeting
 - **3** = External calls greeting
 - **4** = Engaged calls greeting
 - **5** = No reply greeting
 - **6** = Out of hours greeting
 - **7** = Out of service greeting
 - **8** = Default greeting
 - **9** = Temporary greeting
6. Enter the personal greeting number to assign to the call type selected.
7. Press **#**.

[Greetings](#) on page 30

Deleting a Greeting

About this task

You can delete a greeting message any time. If you delete a greeting that is assigned to a call type, the system greeting is played.

When you are scanning your greetings, you can also delete any unwanted greetings by pressing *3 when prompted. For more information, see [Scanning Messages](#) on page 18.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **3** to select personal greetings.
 - If you have any active call types, you hear an announcement listing them. For example, *"For internal calls greeting 1 active"*.
 - If a temporary greeting is active, you hear how many days it will be active. To deactivate it, press **1**. To leave it active, press **#**.
3. Press **1** to create, change or delete a greeting.
4. When prompted, select the greeting (1 to 9) you want to change. The system announces if the greeting is active (in use) for any call types.
5. Press ***3**.

Related links

[Greetings](#) on page 30

Creating a Temporary Greeting

About this task

When a temporary greeting is being used, no other greetings are active. The temporary greeting can be selected for a certain number of days, the maximum number of days being 30. When you enter the number of days the end date is calculated and announced. When the temporary greeting time expires the greetings that you have assigned to specific call types are used. If you have no other greetings assigned the system default greeting will be played to callers.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.

2. Press **3** to select personal greetings.
 - If you have any active call types, you hear an announcement listing them. For example, *"For internal calls greeting 1 active"*.
 - If a temporary greeting is active, you hear how many days it will be active. To deactivate it, press **1**. To leave it active, press **#**.
3. Press **4** to administer call types.
4. Press **9** for temporary greeting.
5. Press **1** to record the greeting. Speak after the tone.
6. Press **#** when finished recording.
7. Enter the number of days that you want the greeting to be active for and press **#** when finished.
8. You will hear an announcement stating that your temporary greeting is active and the number of days that the greeting will remain active.
 - If the number of days selected is between 1 and 30, the greeting is active for the selected number of days. When the number of days has expired your temporary greeting no longer works.
 - If the number of days selected is 0, the selected greeting is your permanent greeting for all voicemail calls. The temporary greeting replaces the system default greeting.
9. To return to the greetings menu when you have finished, press **#**.

Chapter 8: Voicemail Notification

If you have an Avaya 9600 Series or J100 Series phone, it will automatically provide message waiting indication to you for when a new message arrives in your mailbox. Your system administrator can also configure it to provide notification for messages in other mailboxes.

This section covers additional methods of receiving notification of a new message.

[Turning Ringback On or Off](#) on page 40

[Outcalling](#) on page 40

Turning Ringback On or Off

About this task

Ringback is a feature where the voicemail system calls you if you have new messages. It waits until your telephone is in use, to confirm that you are present, and calls you when you end your next call. You can switch voicemail ringback on or off at any time.

- Ringback is not the same as outcalling. Ringback works with your own extension number. Outcalling can be configured to call a number other than your own extension.

Procedure

At your extension:

- To turn ringback on, dial ***48**.
- To turn ringback off, dial ***49**.

Related links

[Voicemail Notification](#) on page 40

Outcalling

The voicemail service makes a call and if answered, tells you that you have a new message. You can then select to either cancel the notification or to login to your mailbox.

! Important:

- By default outcalling is disabled. Your system administrator will inform you if it is supported on your system.
- Your system administrator can configure your mailbox outcalling settings if required.

Destinations

You can define 5 outcalling destination numbers. These are called **Desk**, **Home**, **Mobile**, **Delegate** and **Other**. See [Configuring Your Outcalling Destinations](#) on page 42.

For each destination, you can also set how long it is rung when used.

Escalation List

You can add the destinations that you setup to an escalation list. Each time the system makes an outcalling call, if not answered at the first destination, it will try the next destination in your list.

Schedule

You can select to when outcalling is used, see [Selecting When to Receive Outcalling](#) on page 46. The defaults are:

- **Anytime:** 24 hours a day.
- **Prime times:** 09:00 to 19:30.
- **Peak times:** 09:00 to 17:30.

You can also define you own set of hours for when you want outcalling used. See [Specifying Your Own Time Schedule](#) on page 46.

Retries

If the system does not receive any response to an outcalling attempt (see [Answering Outcalling Calls](#) on page 47), it follows a retry schedule. The default schedule limits the number of retries to 5 and adds an increasing delay between each retry.

The default retry settings are:

- **1st Retry:** 1 minute.
- **2nd Retry:** 5 minutes.
- **3rd Retry:** 10 minutes.
- **4th Retry:** 15 minutes.
- **5th Retry:** 30 minutes.

Configuring Your Outcalling Destinations

About this task

You can add or change the destinations and telephone numbers that outcalling uses. For each destination number you can set the time out length. This is the length of time (in seconds) that the destination telephone rings when notification of a new voicemail message is received. The default time is 15 seconds with the maximum time period being 99 seconds.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. To change your outcalling settings, press **6**.
3. Press **1** to configure your outcalling options. A list of outcalling destinations is played.
4. Select the outcalling destination to configure. An announcement tells you your current outcalling settings.
 - If you selected the incorrect destination, for example Desk instead of Home, press **1**. The list of destinations is played again. Select the required destination.
5. Press **2** to change or enter the destination number.
6. Press **1**, enter the new destination number then press **#**. The telephone number entered is played back.
 - if you must re-enter the destination number, press **1**.
 - Press **#** to accept and enable the new destination.
7. If required, you can change the numbers ringing timeout:
 - a. To change the timeout, press **2**.
 - b. Enter the new value between 5 and 99 seconds and press **#**.
8. The new settings are played. Press **#** to accept and enable the new configuration.
9. Press ***7** to return to the activity menu.

[Outcalling](#) on page 40

Changing Your Destination Telephone Numbers

About this task

You can change the telephone number of an outcalling destination or if no telephone number is defined you can enter a telephone number.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. To change your outcalling settings, press **6**.
3. Press **3** to change a destination telephone number. Voicemail plays a list of possible destination options.
4. Select the destination to change.
 - Press **1** for Desk.
 - Press **2** for Home.
 - Press **3** for Mobile.
 - Press **4** for Delegate.
 - Press **5** for Other.
5. Voicemail announces the telephone number configured for the selected destination.
6. You can change the number if required:
 - a. Press **1**.
 - b. Press **1**, enter the new number and press **#** when finished.
 - c. Press **#** to enable the new telephone number.
7. Press **#** to return to the outcalling menu.
8. If required, you can change the numbers ringing timeout:
 - a. To change the timeout, press **2**.
 - b. Enter the new value between 5 and 99 seconds and press **#**.
9. Press ***7** to return to the activity menu.

[Outcalling](#) on page 40

Changing the Timeout Setting

About this task

For each destination number you can set a timeout. This sets how long time the destination is rung when called. The default time is 15 seconds.

If the destination specified is an internal number, outcalling will not go to voicemail if it is not answered. However, for external number care should be taken. For example, you should set the outcalling timeout to be shorter than your mobile phone's own voicemail setting.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. To change your outcalling settings, press **6**.
3. Press **3** to change a destination telephone number. Voicemail plays a list of possible destination options.
4. Select the destination to change.
 - Press **1** for Desk.
 - Press **2** for Home.
 - Press **3** for Mobile.
 - Press **4** for Delegate.
 - Press **5** for Other.
5. Voicemail announces the telephone number configured for the selected destination.
6. Press **#** to return to the outcalling menu.
7. If required, you can change the numbers ringing timeout:
 - a. To change the timeout, press **2** .
 - b. Enter the new value between 5 and 99 seconds and press **#**.
8. Press ***7** to return to the activity menu.

[Outcalling](#) on page 40

Creating an Escalation List

About this task

You can create a list of your outcalling destinations, called an escalation list. Each time the system makes an outcalling call, if not answered by the first destination in the list, it will try the next destination and so on.

For example, you can select that new voicemail notification sent to your desk. If there is no response, the system can then call your mobile number. If again there is no response, it can call your home number.

When you create an escalation list you can select between two and five different destinations. If needed, you can add the same destination to your escalation list more than once.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. To change your outcalling settings, press **6**.
3. Press **1** to configure outcalling.
4. Press **6** to select escalation.
5. Press **1** to change or configure the locations for escalation. An announcement of the locations available is heard.
6. Select the locations for the escalation. If you have not defined a number for the destination, you are prompted to enter the telephone number and the time out period or select a different destination.
 - Press **1** for Desk.
 - Press **2** for Home.
 - Press **3** for Mobile.
 - Press **4** for Delegate.
 - Press **5** for Other.
7. When you have selected the required locations, press **#** to finish the escalation list.
 - Press **1** to re-select the destinations.
 - Press **3** to listen to the destinations selected.
 - Press **4** to listen to the destinations and telephone numbers selected.
 - Press **2** to accept the list. You are returned to the outcalling main menu.

Next steps

When you have created an escalation list you can select to receive notification using the default settings of prime time, peak time or any time, see [Selecting When to Receive Outcalling](#) on page 46. You can also specify your own time schedule, see [Specifying Your Own Time Schedule](#) on page 46.

Related links

[Outcalling](#) on page 40

Selecting When to Receive Outcalling

About this task

You can select to receive outcalling notification during the prime or peak time periods. The time periods are set globally by your system administrator and may have been changed from the default setting. The default times are:

- **Anytime:** 24 hours a day.
- **Prime times:** 09:00 to 19:30.
- **Peak times:** 09:00 to 17:30.

Your system administrator can adjust the settings if required.

The times are based on the location of the voicemail server which may be different from your time zone. For details, contact your system administrator.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. To change your outcalling settings, press **6**.
3. Press **2** to change the outcalling times:
 - To receive outcalling at any time, press **1**.
 - To receive outcalling during prime time periods, press **2**.
 - To receive outcalling during peak times, press **3**.
 - To specify your own outcalling schedule, press **4**. See [Specifying Your Own Time Schedule](#) on page 46.
 - To hear the system outcalling schedule. When the schedule times are announced you can select the time period.
4. You will hear an announcement of the new outcalling settings.

[Outcalling](#) on page 40

Specifying Your Own Time Schedule

About this task

You can create your own time profile to select when you will receive outcalling notification. You can change the times of each time period and select when to turn outcalling on. The default time profile is:

- From time A currently 9 am to time B currently 5.30 pm, outcalling is turned on/off.
- From time B currently 5.30 pm to time C currently 7.30 pm, outcalling is turned on/off.
- From time C currently 7.30 pm to time A currently 9 am, outcalling is turned on/off.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. To change your outcalling settings, press **6**.
3. Press **2** to change the outcalling times:
4. Press **4** to specify your own times.
5. Press **1** to change your time profile settings. You hear an announcement of the current settings for the time period A to B.
 - a. To change the destination, press **1**. Select the new destination (1 to 5). Press **#** to enable.
 - b. To turn outcalling on for all new messages, press **1**. To turn it on for just new priority messages, press **2**.
 - c. Press **2** to change time A.
 - d. Press **3** to change time B.
 - e. To accept the settings for the time period, press **#**.
6. You will hear the current settings for the time B to C settings.
 - a. To change the destination, press **1**. Select the new destination (1 to 5). Press **#** to enable.
 - b. To turn outcalling on for all new messages, press **1**. To turn it on for just new priority messages, press **2**.
 - c. Press **2** to change time C.
 - d. To accept the settings for the time period, press **#**.
7. You will hear the current settings for the time C to A settings.
 - a. To change the destination, press **1**. Select the new destination (1 to 5). Press **#** to enable.
 - b. To turn outcalling on for all new messages, press **1**. To turn it on for just new priority messages, press **2**.
 - c. To accept the settings for the time period, press **#**.
8. Press **#**. You are returned to the outcalling main menu.

Answering Outcalling Calls

About this task

When you are notified of a new voice message you hear the announcement “You have new messages. To access your messages, please enter your extension number and press hash. To avoid further notification of these messages, press star hash”.

If you do not answer the call or do answer but do not respond, the system will try the next number in your escalation list if you have one. See [Creating an Escalation List](#) on page 44. If there is no

answer from any number tried, the system will try outcalling again at a later time following the retry schedule. See [Outcalling](#) on page 40.

Procedure

1. Answer the telephone call.
2. When you hear the outcalling announcement:
 - To cancel the outcalling, press ***#**. The outcalling is cancelled for the current new message. You will still receive outcalling for any further new messages.
 - To answer the outcalling, press **#**. You can now login to voicemail as normal.

Changing Your Password

About this task

For security reasons, you should change your password periodically.

If necessary, your system administrator can set a new voicemail password for you. You can then use that password to access your mailbox and change the password.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **4** to change your password.
4. Enter the new password and press **#**.
 - You must enter at least 6-digits. The system allows up to 15-digits.
 - You cannot use your extension number, repeated digits or consecutive numbers.
 - You cannot use common key pad patterns such as 1397.
 - Your system administrator can change the minimum requirements and will inform you if they are different.
5. Reenter the new password and press **#**. You hear a message confirming if your password has changed.

Related links

[Mailbox Administration](#) on page 49

Recording Your Name

About this task

Your name is played as a confirmation when you log in to your mailbox. It is also used for other system announcements and for the directory search feature of the system. You can re-record your name at any time.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **5**. If you have already recorded your name, you hear it played back to you. You also hear an explanation of when your name is used.
4. After the tone, speak your name and then press 1 to stop recording.
 - Recordings must be at least 3 seconds long. The system will automatically delete any messages that are shorter.
5. Your recording is played back.
 - To record your name again, press **1**.
 - To accept the recording, press **#**.
6. Hang up or choose another option.

Related links

[Mailbox Administration](#) on page 49

Addressing a Message Before You Record

About this task

You can select whether to set the address for a message before or after you record. The default is off, which means that you set the address after recording the message. When switched on, you are asked to specify the extension numbers of the recipients before you record the message.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **6**. You hear a message that tells you whether the **Address before Record** option is turned on or off.
4. To change the setting, press **1**. You hear a message confirming your change.

Related links

[Mailbox Administration](#) on page 49

Preventing Further Calls and Messages

About this task

You can prevent further callers from leaving messages. Instead, callers hear your name and the message “Sorry, the mailbox you have reached is not accepting messages at this time. Please disconnect”. This does not stop other mailbox users from forwarding messages to your mailbox.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **7**. You hear a message that tells you whether the option is on or off.
4. To change the setting, press **1**. You hear a message confirming the change.

Related links

[Mailbox Administration](#) on page 49

Setting the Order of Message Playback

About this task

When you log into your mailbox, messages are played to you in the order in which they were received. You can specify the order in which different types of incoming messages (voice, email and fax) are played. For example, you can choose to hear emails first or fax messages before voice messages.

Whichever order you specify, new messages are presented first followed by old or read messages. While you are listening to your messages, you can press ***#** to skip to the next type of message.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **8** for media preferences. You hear an announcement telling you your current preference.
 - To select no preference, press **0**.
 - To make voice calls your preferred media, press **1**. Your voice messages will be played first, followed by fax and then email messages.
 - To make fax messages your preferred media, press **2**. Your fax messages will be played first, followed by voice and then email messages.
 - To make email messages your preferred media, press **3**. Your email messages will be played first, followed by voice and then fax messages.

- To retain your current preferred media, press #.

[Mailbox Administration](#) on page 49

Chapter 10: Fax Messages

Your voicemail system can be configured to handle fax messages. If so, when you listen to your messages, you are told which are faxes and can hear details of the fax sender, date and time and length (approximate pages).

You can then manually forward fax messages to either the systems default fax number or to a number you specify at the time.

You can also configure a personal fax number to which you want any faxes received by your mailbox automatically forwarded.

Related links

[Forwarding a Fax Messages](#) on page 53

[Setting a Personal Fax Number](#) on page 54

[Deleting Your Personal Fax Number](#) on page 54

Forwarding a Fax Messages

About this task

If you receive a fax message in your mailbox, you can forward it to the default system-wide fax number, typically your company fax machine. Alternatively, you can forward a fax message to a fax number that you specify, see [Setting a Personal Fax Number](#) on page 54.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. If any of your messages are faxes, press *1 for fax options.
3. Either:
 - Press # to forward the fax message to the system fax number. Press # to confirm.
 - Type the number to which the fax is to be forwarded and press #. The fax number that you have specified is played back to you for confirmation.

Related links

[Fax Messages](#) on page 53

Setting a Personal Fax Number

About this task

If your system administrator has set a system fax number, any fax calls to your mailbox are diverted to the specified number. You can override this from your telephone handset and set your own personal number for printing fax calls that are received in your mailbox. This is useful if you are not in the office and want to use a different fax number.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **3** for fax preferences.
4. If you hear the prompt "A *default print destination has not been defined*" this is because a default system fax number has not been set. You cannot set up a personal fax number until a default system fax number is set by your system administrator. Press ***7** to return to the activity menu.
5. If a personal fax print number is already set, it is played to you. Press **1** to change the default fax destination.
 - a. Enter the telephone number of the fax machine that you would prefer to use instead. The fax number can be up to 23 digits long.
 - b. Enter **#** when you have finished typing the fax number. The new default destination is played to you.
6. Press ***7**.

Related links

[Fax Messages](#) on page 53

Deleting Your Personal Fax Number

About this task

You can delete a personal fax number, if you have set one, and return to using the system fax number.

Procedure

1. Log in to your mailbox. See [Logging In](#) on page 11.
2. Press **5** for personal options.
3. Press **3** for fax preferences. If you have a personal fax number set, voicemail plays it to you.

4. Press ***3** to delete the personal fax number. Your personal fax number is deleted and the system fax number is played to you. The system fax number is now used for any future fax messages that you receive.

Logging into Visual Voice

About this task

Visual voice is a set of Avaya phone menus that you can use to access your mailbox and the mailbox settings.

By default, the  button on Avaya phones accesses the visual voice menus for the phone user's mailbox.

- Your system administrator can also configure the visual voice menus for your phone to provide access to messages in other users and groups mailboxes.

Procedure

1. Either:
 - a. Press the  button on your Avaya phone.
 - b. Press **Features**. Scroll down to **Visual Voice** and press **Select**.
 - c. Press the optional **Visual Voice** button that has been programmed on your phone.
2. The visual voice options should appear on the phone's screen. See [Visual Voice Controls](#) on page 57.

[Zusätzliche Dokumentation](#) auf Seite 59

Kennwort vergessen

Einige IP Office-Funktionen erfordern die Eingabe von Informationen wie Benutzername, Kennwort, Anmeldecode (Sicherheits-PIN), Voicemail-Code (Postfachkennwort).

Avaya kann die Werte für Ihre Kennwörter und Codes nicht zurücksetzen. Ihr Systemadministrator kann die Werte bei Bedarf zurücksetzen, entweder selbst oder durch eine Anfrage an Ihren Avaya-Geschäftspartner.

Ihr Systemadministrator legt auch die Regeln fest, die Ihr IP Office System für zulässige Kennwörter und Codes verwendet. Die gleichen Regeln gelten für alle Benutzer.

Verwandte Links

[Zusätzliche Hilfe und Dokumentation](#) auf Seite 58

Hilfe erhalten

Avaya verkauft IP Office über akkreditierte Geschäftspartner. Diese Geschäftspartner bieten direkten Support für ihre Kunden und eskalieren Probleme ggf. an Avaya.

Wenn Sie weitere Unterstützung benötigen, sollten Sie sich zuerst an Ihren eigenen Systemadministrator wenden. Sie können auf die vollständige Konfiguration des IP Office Systems zugreifen, entweder selbst oder über eine Anfrage an den Avaya Geschäftspartner Ihres Systems.

Obwohl Ihr Systemadministrator/Wiederverkäufer Ihre vorhandenen Kennwörter nicht sehen kann, kann er sie zurücksetzen, damit Sie sich erneut anmelden und dann den Wert ändern können.
